100 PLACES TO SEE AFTER YOU DIE: A Travel Guide to the Afterlife

Hardcover * June 2023

100 Places to See After You Die is written in the style of iconic bestselling travel guides. But instead of recommending must-see destinations in Mexico, Thailand, or Rome, this book outlines journeys through the afterlife, as dreamed up over the past 5,000 years of human history by our greatest prophets, poets, mystics, artists, and TV showrunners. Where's the best place to grab a bite to eat in the ancient Egyptian underworld? Which circles of Dante's *Inferno* have the nicest accommodations? How does one dress like a local in the heavenly palace of Hinduism's Lord Vishnu, or avoid the flesh-eating river serpents in the Klingon afterlife? What are the hidden treasures to be found off the beaten path in Hades, Valhalla, or NBC's *The Good Place*? This book answers all those questions and more about the world(s) to come. The destiny of the human soul in the great beyond is one of life's deepest mysteries. But you won't have to wonder anymore! *100 Places to See After You Die* comprehensively indexes one hundred different afterlife destinations, exhaustively researched from sources ranging from the Epic of Gilgamesh to modern-day pop songs, video games, and *Simpsons* episodes. Be ready for whatever post-mortal destiny awaits, whether you're hoping for the astral plane, a Hieronymus Bosch hellscape, or the baseball diamond from *Field of Dreams*. This is one trip no one should leave to chance. Jennings was an anonymous Salt Lake City software engineer in 2004 when he was unexpectedly vaulted to TV celebrity by his record-breaking 74-game, \$2.5 million winning streak on the syndicated quiz show *Jeopardy!* Today, he is the author of twelve books, including the *New York Times* bestsellers *Brainiac*, *Maphead*, and *Because I Said So!*, as well as the Junior Genius Guides for children. His most recent book is *Planet Funny*, about comedy's takeover of modern culture. In 2020, he was named *Jeopardy!*'s "Greatest of All Time" after winning a prime time tournament on ABC, and has recently been hosting the show following the death of longtime presenter Alex Trebek. He grew up in Seoul, Korea but for the last fifteen years has lived in his native Seattle with his family and his dogs.

CHIP WAR: How the World's Most Critical Technology Reset the Balance of Power, Accelerated Globalization, and Will Determine Who Controls the Future

Hardcover * October 2022

Power in the modern world—military, economic, geopolitical—is built on a foundation of computer chips. America has maintained its lead as a superpower only because it has dominated advances in computer chips and all the technology that chips have enabled. (Virtually *everything* runs on chips: cars, i-phones, the stock market, even the electric grid.) Now America's edge is in danger of slipping, undermined by the naïve assumption that globalizing the chip industry and letting players in Taiwan, Korea, and Europe take over manufacturing serves America's interests. Currently, as *Chip War* reveals, China, which spends as much on chips as it sells of any other product, is pouring billions into a chip-building Manhattan Project to catch up to the U.S. At stake is America's military superiority and economic prosperity. In *Chip War*, historian Chris Miller recounts the fascinating sequence of events that led from the United States'

perfecting the chip design, to promoting their use in everything from artificial intelligence to armed drones, and then, slowly but surely, letting key components of the chip-building process out of its grasp. *Chip War* argues that we can't make sense of politics, economics, or technology today without first understanding the central role played by chips in shaping the modern world. Chris Miller, a faculty member at Tufts University's Fletcher School of Law and Diplomacy, Director at geopolitical consultancy Greenmantle, and contributor to The New York Times and The Wall Street Journal, offers an epic account of the past, present, and future of the computer chip, in the tradition of Daniel Yergin's *The Prize* (sold in 21 international markets) with its warning about future jostling for resource supremacy.

CRISIS HUNTERS: How Wall Street Traders Are Making Billions in the New Age of Chaos

Hardcover * June 2022

The world has gotten more extreme. Pandemics, climate disasters, superpower rivalries, technological disruption, political radicalization, cyber-terrorism—all threaten chaos that will put trillions in assets at risk. But around the world, across a wide variety of disciplines, would-be super-forecasters are trying to take the guesswork out of what formerly seemed like random chance. Others *embrace* “black swans”—an unpredictable event beyond what is normally expected and that carries dire consequences—believing that if these events can't be foreseen, they can at least be prepared for. And some of these chaos trackers, such as the hedge fund Universa, are getting rich off of tumult. In researching *The Crisis Hunters*, Scott Patterson not only obtained exclusive access to top strategists at Universa but he also combed Wall Street to find

market players with similar models. In addition, he ranged from far outside finance to meet with seers in a variety of fields, from earthquake prediction to counter-terrorism to climatology to see if it's actually possible to beat disaster—and win. Patterson has been a reporter for nearly two decades, mostly at *The Wall Street Journal* in New York, Washington D.C., and London. He is the *New York Times* bestselling author of *The Quants* in 2010 and wrote *Dark Pools* in 2012.

SIT UP STRAIGHT: Future-Proof Your Body Against Chronic Pain with 12 Simple Movements
Hardcover * April 2022

What if we could easily acquire long-lasting protection for our bodies and escape the chronic pain caused by our sit-all-the-time, slouch-too-much lifestyles? Vinh Pham is a world-class physical therapist who has worked with a broad range of clients, from Olympians to NBA stars to MMA fighters to Golden Globe and Grammy Award-winning artists. Pham discovered early on in his career that most of his patients came to him *already* in pain. Poor, deeply ingrained lifestyle habits misaligned their joints and tightened their muscles. If you're sitting for more than thirty minutes at a time without getting up, you may be heading toward a world of hurt. Vinh's answer to the host of muscle maladies that ails us has been a revolutionary concept: why not *future proof*?

Instead of reacting to chronic pain *after* it flares up, what if we focused on a "movement discipline" that not only prevented injuries but leads to longer lives, healthier bodies, and clearer minds? *Sit Up Straight* outlines a process that starts with a daily posture hygiene regimen. Vinh provides daily exercises that can lock in protection as well as a series of customized movements based on age, gender, and the kind of work we perform. A precise and simple toolkit for tweaking the way we move (or *refuse* to move), *Sit Up Straight* shows that the solution to becoming pain-free is easier than we think. Pham is a licensed physical therapist with over a decade's experience working with industry-leading health and wellness brands and treating top athletes, celebrities, and entrepreneurs. He is the founder of Myodetox, a group of design-forward manual therapy clinics that are reimagining traditional therapy and rehab experience.

IN WHOSE RUINS: Power, Possession, and the Landscapes of American Empire
Hardcover * April 2022

In this examination of landscape and memory, four sites of American history are revealed as places where historical truth was written over by oppressive fiction—with profound repercussions for politics past and present. From ancient Indigenous monuments that settlers declared to be the work of a mythical white race; to the faith-infused quest for oil in Pennsylvania; to the removal of Native artworks threatened by a hydroelectric dam on Maryland's Susquehanna River; to the toxic legacy of the nuclear program in the American west, *In Whose Ruins* ranges over the American landscape. These geographical sites are all sources of power, literal and metaphorical. They are also united by a pattern of erasure: in each case, colonizers who drove out Indigenous peoples and then denied their claim to the land invented new histories to give legitimacy to their

actions. Here, the sciences of memory—archaeology, anthropology, history, and linguistics, are shown to be haunted by their complicity in silencing the communities they studied. Engrossing and clear-eyed, this examination of the American tradition of selective remembrance and forgetting shows how the past itself became an exploitable resource—and offers an invaluable torch in the search for a way forward. Author Alicia Puglionesi is a writer and historian with a PhD in the history of science, medicine, and technology.

COLD, COLD BONES: A Temperance Brennan Novel

Hardcover * July 2022

Winter has come to North Carolina and, with it, a drop in crime. For a while, temporarily idle forensic anthropologist Tempe Brennan is content to dote on her daughter Katy, finally returned to civilian life from the army. But when mother and daughter return to Tempe's place one night for dinner, they find a box on the back porch. Inside: a very fresh human eyeball. GPS coordinates etched into the eyeball lead to a Benedictine Monastery where an equally macabre discover awaits. Soon after, Tempe examines a mummified corpse in a state park, and her anxiety deepens. There seems to be no pattern to these killings, except that each mimics in some way a killing that a younger Tempe witnessed, analyzed, or barely escaped. Who is targeting her, and why? In a sudden twist of events, Tempe's daughter Katy disappears. At its core, *Cold, Cold Bones* is about revenge, and the lasting damage caused by violence, trauma and loss.

Kathy Reichs' first novel *Deja Dead* was a #1 New York Times bestseller and won the 1997 Ellis Award for Best First Novel. *Cold, Cold Bones* is Kathy's twenty first entry in her series featuring forensic anthropologist Temperance Brennan. Kathy was also a producer of the hit Fox TV series, *Bones*, which is based on her work and her novels. Dr. Reichs is one of very few forensic anthropologists certified by the American Board of Forensic Anthropology. She served on the Board of Directors and as Vice President of both the American Academy of Forensic Sciences and the American Board of Forensic Anthropology, and as a member of the National Police Services Advisory Council in Canada.

Schneider, Vanessa

TU T'APPELAIS MARIA SCHNEIDER

Hardcover * April 2023

The late French actress Maria Schneider is maybe best known for playing Jeanne in the controversial film "Last Tango in Paris," which released to international shock and acclaim in 1972. It was her first major role, secured alongside film legend Marlon Brando when she was barely 18. The experience would haunt her for the rest of her life, traumatizing her, pigeonholing her, and sparking a tabloid firestorm that only abated when she began to recede from the public eye nearly two decades later. For Maria's cousin, Vanessa Schneider, 17 years Maria's junior, Maria was a towering figure of another kind--a beautiful and fearsome fixture in Vanessa's childhood, a wunderkind turned pariah whose career and struggles with addiction won the family shame and pride in equal measure. In *Tu T'Appelais Maria Schneider*, Vanessa charts the challenges of their overlapping youths, and reveals both the tragedy and inevitability of Maria's trajectory in a family plagued by mental illness and in a society rife with misogyny. In Vanessa's compassionate and unflinching narrative, Maria comes into focus as a complex three-dimensional figure for the first time. Unsentimental but suffused with deep love, this is a story of a young and talented artist, and how exploitation and its lingering effects can reverberate through a lifetime. In a world still reeling from revelations about high profile abusers and the systems that enabled their atrocities to go on for decades, *Tu T'Appelais Maria Schneider* is a crucial contribution to an ongoing conversation about the treatment of women pursuing careers and ambitions in male-dominated industries. Schneider is a French journalist and author of the bestselling and award-winning memoir *Tu T'Appelais Maria Schneider*, published in France in 2018. Vanessa is also the author of two novels, *La Mère de ma mère* and *Do Not Go Crazy*. *Tu T'Appelais Maria Schneider* is the first of her books to be translated into English. She is currently a staff writer at *M* magazine in France and regularly contributes to the programs *C dans l'air* on France.5 and *As We Talk* on France International. Molly Ringwald's writing has appeared in *The New Yorker*, *The New York Times*, *The Guardian*, and *Vogue*, and she is the author of the best-selling novel-in-stories *When It Happens to You*.

THE OLD INDIAN DOOR: The 1704 Attack on Deerfield, Massachusetts and the Epic Saga that Followed

Hardcover * April 2023

Once it was one of the most famous events in early American history. Today, no one remembers. In an obscure, two-hundred-year-old museum in a little village in western Massachusetts, there reposes what was once the most celebrated but now totally forgotten relic from the history of early New England—the massive, tomahawk-scarred door that came to symbolize the notorious Deerfield Massacre. This impregnable barrier—venerated by early Americans as “The Old Indian Door”—is the sole surviving relic from the most dramatic moment in colonial American history. On February 29, 1704, hundreds of Native Americans and their French allies swept down upon an isolated but key frontier a post and wiped it out. That was only the beginning. Nearly one-hundred survivors were captured and led on a 900-mile forced march north into enemy territory in Canada before they were ransomed back. The sacking of Deerfield led to one of the greatest sagas of adventure, survival, sacrifice, family, honor, and faith ever told on this continent. James Swanson is the author of *New York Times* bestseller *Manhunt: The 12-Day Chase for Lincoln’s Killer*.

AUTOBIOGRAPHY OF SHADOWS: An Allegory

Hardcover * April 2023

Autobiography of *Shadows* is a post-truth coming-of-age story centering on two devastating, complicated instances of deception: the dangerous conspiracy theories pushed by Sarah Viren's high school English teacher, Dr. Y., and the false sexual harassment accusations made against Sarah's wife, Marta, by a fellow academic intent on beating Sarah out for a teaching job. In Florida in the 1990s, Sarah is a teenager on the cusp of adolescent rebellion when she is assigned to Dr. Y's class in an advanced high school program. As she moves through high school, sneaking out, smoking pot, discovering music and poetry, and coming out, she is entranced and then disturbed by Dr. Y's insistence that his students "question everything" -- which sometimes feels like liberation from the ideas of her childhood, sometimes feels like an existential crisis, and sometimes takes a darker turn. Many years later, Sarah is living in Phoenix with her wife, Marta, and their two small children, applying for new academic jobs and interviewing her old classmates for a book on Dr. Y.'s conspiracy theories, when a series of sexual harassment accusations threatens to derail their lives. She *knows* Marta can't have done the things of which she's being accused, both in her heart and because they don't really make sense: the accusations come from anonymous email accounts, describe "wild parties" at Sarah's house that never happened, and give an account of Marta's whereabouts that don't match with either the women's memories or Marta's iPhone data. The investigation, nevertheless, throws both of their jobs into jeopardy, as well as a new job offer for Sarah. In *An Autobiography of Shadows*, Sarah explores the nature of truth and deception, the powerful pull of conspiracy, and the malleability of personal narratives through these two parallel investigations: uncovering the "truth" behind Dr. Y's teaching methods through her own memories, her classmates' memories, and eventually through tracking down her old teacher; and fighting desperately to uncover who is working to sabotage her and Marta's lives, and why. A compelling, high-stakes journey into honesty and betrayal, this is an unforgettable memoir about the unstable line between truth and invention. Viren is a contributing writer for the *New York Times Magazine* and author of the essay collection, *Mine*.

Hardcover * October 2022

From the *New York Times* bestselling author of *The Gatekeepers* and *The Spymasters* comes the inside story of President Joe Biden's tumultuous and consequential first year. The Biden administration inherited a country in chaos and was forced to deal simultaneously with a lethal pandemic that created a devastating economic crisis; racial injustice; global warming; infrastructure meltdown; partisan warfare; and a violent right-wing insurrection that revealed just how deep democracy's cracks run. FELLOWSHIP POINT: A Novel
Hardcover * July 2022

MR
Fiction

When Agnes Lee receives her third cancer diagnosis at the age of eighty, she focuses on securing her legacy. First, as an author struggling to finish the final volume of her popular children's series, and secondly, to see through her determination to find a way to permanently protect Fellowship Point, a peninsula in Maine acquired by five like-minded Quaker families in the 1870s. Agnes is determined to dissolve a generations-old partnership agreement in order to donate the land to a trust and thereby protect it from potential development after her death. She's confident she can convince the two surviving shareholders—her lifelong best friend Polly and her favorite nephew Archie—to go along with her plan. Polly has led a different life than Agnes, exalting in creating beauty and harmony in her home, in her friendships, and in her family life. When Agnes proposes her plans, Polly's loyalties are torn between the wishes of her best friend and those of her eldest son who is in line to be the next shareholder. But what is it that Polly herself wants? *Fellowship Point* reads like a classic 19th-century novel in its beautifully woven, multilayered narrative but is utterly contemporary in the themes it explores: a deep and empathic interest in women's lives, the class differences that divide us, the struggle to protect the natural world, and above all, a reckoning with intimacy, history, and posterity. Alice Elliott Dark is the author of *Think of England* and two collections of short stories. Her work has appeared in *The New Yorker*, *Harper's*, and *The New York Times* among others. Her award-winning story "In the Gloaming" was made into two films.

Fiction

Ten years ago, Abigail Lovett fell into a job she loves working at the Passage Inn, a resort nestled in the Appalachian mountain town of Cutter's Pass. Cutter's Pass is famous for its outdoor offers—and its tragic history. As the book opens, the string of unsolved disappearances that haunts the town is again thrust into the spotlight when a journalist investigating the story himself disappears. Abby has always felt like an outsider among the townspeople and her staff at the Inn. When the journalist disappears and his brother shows up to investigate, Abby can't help but feel the town closing ranks, and she's still on the outside. As she finds incriminating evidence that may bring them closer to the truth, Abby soon discovers how little she knows about her coworkers, neighbors, and even past lovers. *New York Times* bestselling author Megan Miranda of *All the Missing Girls*, *The Perfect Strange*, *The Last House Guest*, and *The Girl From the Widow Hills* brings her best writing to this riveting thriller.
