EVERLASTING MEAL COOKBOOK: Recipes for Leftovers A-Z

Hardcover * March 2023

The award-winning, bestselling author of *An Everlasting Meal* serves up an inspiring, money-saving, environmentally responsible, A-to-Z encyclopedia of recipes for every leftover one might find, in any quantity, lingering in the refrigerator or pantry-- perfect solo meals or for feeding the whole family. There are some things in the kitchen universe that don't have further uses, but according to Tamar Adler there aren't many. Finding appetizing destinies for leftovers is Adler's area of culinary expertise. It doesn't matter if there are extra potatoes or meat, citrus peel, cold rice, a few final olives in a jar, the end of a piece of cheese, potato chip crumbs or apple sauce. *An Everlasting Meal Cookbook* is a go-to resource for when kitchens seem full of ends of meals and empty of clear beginnings. Hoping to provide the most help to the most people, Adler includes foods at the furthest ends of the spectrum— from “*Truffles, Perigord, dust*” to “*Chips, Potato, Sour Cream and Onion, crumbs*”— and everything in between, whether it's “*Applesauce, teaspoon;*” “*Bread, peasant, sliced;*” or “*Cabbage, core.*” *The Everlasting Meal Cookbook* is a vital tool in empowering home cooks: a current, comprehensive guide through which one can easily flip, finding uses for all manner of scraps and bits and pieces. These inspiring and delicious recipes don't demand many precise measurements (one can hardly be prescribed a certain amount of a given leftover) and are essential to cooking with economy and grace. Adler is the James Beard and IACP award-winning author of two prior books on cooking, *An Everlasting Meal* and *Something Old, Something New* and is a contributing editor at *Vogue*. She has cooked at Chez Panisse and was a *New York Times Magazine* columnist and the host of the Luminary podcast, *Food Actually*. She lives in Hudson, NY.

100 PLACES TO SEE AFTER YOU DIE: A Travel Guide to the Afterlife

Hardcover * June 2023

100 Places to See After You Die is written in the style of iconic bestselling travel guides. But instead of recommending must-see destinations in Mexico, Thailand, or Rome, this book outlines journeys through the afterlife, as dreamed up over the past 5,000 years of human history by our greatest prophets, poets, mystics, artists, and TV showrunners. Where's the best place to grab a bite to eat in the ancient Egyptian underworld? Which circles of Dante's *Inferno* have the nicest accommodations? How does one dress like a local in the heavenly palace of Hinduism's Lord Vishnu, or avoid the flesh-eating river serpents in the Klingon afterlife? What are the hidden treasures to be found off the beaten path in Hades, Valhalla, or NBC's *The Good Place*? This book answers all those questions and more about the world(s) to come. The destiny of the human soul in the great beyond is one of life's deepest mysteries. But you won't have to wonder anymore! *100*

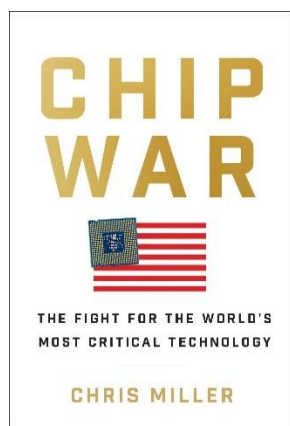

Places to See After You Die comprehensively indexes one hundred different afterlife destinations, exhaustively researched from sources ranging from the Epic of Gilgamesh to modern-day pop songs, video games, and *Simpsons* episodes. Be ready for whatever post-mortal destiny awaits, whether you're hoping for the astral plane, a Hieronymus Bosch hellscape, or the baseball diamond from *Field of Dreams*. This is one trip no one should leave to chance. Jennings was an anonymous Salt Lake City software engineer in 2004 when he was unexpectedly vaulted to TV celebrity by his record-breaking 74-game, \$2.5 million winning streak on the syndicated quiz show *Jeopardy!* Today, he is the author of twelve books, including the *New York Times* bestsellers *Brainiac*, *Maphead*, and *Because I Said So!*, as well as the Junior Genius Guides for children. His most recent book is *Planet Funny*, about comedy's takeover of modern culture. In 2020, he was named *Jeopardy!*'s "Greatest of All Time" after winning a prime-time tournament on ABC and has recently been hosting the show following the death of longtime presenter Alex Trebek. He grew up in Seoul, Korea but for the last fifteen years has lived in his native Seattle with his family and his dogs.

CHIP WAR: How the World's Most Critical Technology Reset the Balance of Power, Accelerated Globalization, and Will Determine Who Controls the Future
Hardcover * October 2022

Power in the modern world—military, economic, geopolitical—is built on a foundation of computer chips. America has maintained its lead as a superpower only because it has dominated advances in computer chips and all the technology that chips have enabled. (Virtually *everything* runs on chips: cars, i-phones, the stock market, even the electric grid.) Now America's edge is in danger of slipping, undermined by the naïve assumption that globalizing the chip industry and letting players in Taiwan, Korea, and Europe take over manufacturing serves America's interests. Currently, as *Chip War* reveals, China, which spends as much on chips as it sells of any other product, is pouring billions into a chip-building Manhattan Project to catch up to the U.S. At

stake is America's military superiority and economic prosperity. In *Chip War*, historian Chris Miller recounts the fascinating sequence of events that led from the United States' perfecting the chip design, to promoting their use in everything from artificial intelligence to armed drones, and then, slowly but surely, letting key components of the chip-building process out of its grasp. *Chip War* argues that we can't make sense of politics, economics, or technology today without first understanding the central role played by chips in shaping the modern world. Miller, a faculty member at Tufts University's Fletcher School of Law and Diplomacy, Director at geopolitical consultancy Greenmantle, and contributor to *The New York Times* and *The Wall Street Journal*, offers an epic account of the past, present, and future of the computer chip, in the tradition of Daniel Yergin's *The Prize* (sold in 21 international markets) with its warning about future jostling for resource supremacy.

CRISIS HUNTERS: How Wall Street Traders Are Making Billions in the New Age of Chaos

Hardcover * June 2023

The world has gotten more extreme. Pandemics, climate disasters, superpower rivalries, technological disruption, political radicalization, cyber-terrorism—all threaten chaos that will put trillions in assets at risk. But around the world, across a wide variety of disciplines, would-be super-forecasters are trying to take the guesswork out of what formerly seemed like random chance. Others *embrace* “black swans”—an unpredictable event beyond what is normally expected and that carries dire consequences—believing that if these events can’t be foreseen, they can at least be prepared for. And some of these chaos trackers, such as the hedge fund Universa, are getting rich off of tumult. In researching *The Crisis Hunters*, Scott Patterson not only obtained exclusive access to top strategists at Universa but he also combed Wall Street to find

market players with similar models. In addition, he ranged from far outside finance to meet with seers in a variety of fields, from earthquake prediction to counter-terrorism to climatology to see if it’s actually possible to beat disaster—and win. Patterson has been a reporter for nearly two decades, mostly at *The Wall Street Journal* in New York, Washington D.C., and London. He is the *New York Times* bestselling author of *The Quants* in 2010 and wrote *Dark Pools* in 2012.

COLD, COLD BONES: A Temperance Brennan Novel

Hardcover * July 2022

Winter has come to North Carolina and, with it, a drop in crime. For a while, temporarily idle forensic anthropologist Tempe Brennan is content to dote on her daughter Katy, finally returned to civilian life from the army. But when mother and daughter return to Tempe’s place one night for dinner, they find a box on the back porch. Inside: a very fresh human eyeball. GPS coordinates etched into the eyeball lead to a Benedictine Monastery where an equally macabre discover awaits. Soon after, Tempe examines a mummified corpse in a state park, and her anxiety deepens. There seems to be no pattern to these killings, except that each mimics in some way a killing that a younger Tempe witnessed, analyzed, or barely escaped. Who is targeting her, and why? In a sudden twist of events, Tempe’s daughter Katy disappears. At its core, *Cold, Cold Bones* is about revenge, and the lasting damage caused by violence, trauma and loss. Reichs’

first novel *Deja Dead* was a #1 New York Times bestseller and won the 1997 Ellis Award for Best First Novel. *Cold, Cold Bones* is Kathy's twenty first entry in her series featuring forensic anthropologist Temperance Brennan. Kathy was also a producer of the hit Fox TV series, *Bones*, which is based on her work and her novels. Dr. Reichs is one of very few forensic anthropologists certified by the American Board of Forensic Anthropology. She served on the Board of Directors and as Vice President of both the American Academy of Forensic Sciences and the American Board of Forensic Anthropology, and as a member of the National Police Services Advisory Council in Canada.

THE BOOK OF COCKTAIL RATIOS: The Surprising Simplicity of Classic Cocktails

Hardcover * August 2023

Did you know that a Gimlet, a Daiquiri, and a Bee's Knees are the same cocktail? As are a Cosmopolitan, a Margarita, and a Sidecar. Wouldn't you like to be able to say to arriving guests, "Would you care for a Boulevardier, perhaps, or a Negroni?" These, too, are the same cocktail, switching one ingredient for another. Would you like to be able to whip up a batch of whiskey sours for a party of eight in fewer than two minutes? All cocktails are really ratios-- proportions of one ingredient relative to the others. *The Friday Cocktail Hour* is organized around five of our best-known, widely beloved, classic families of cocktails, each following a simple ratio from which myriad variations can be built: The Manhattan, The Gimlet, The Margarita, The Negroni, and the most debated cocktail ever, The Martini. *The Friday Cocktail Hour* is a practical reference of classic cocktails, a source of inspiration when we tire of the same old gin and tonic, and an affable companion for reading about the pleasures of the cocktail hour. Ruhlman is the author of twelve books, including the bestselling *The Making of a Chef* and *The French Laundry Cookbook*. He lives in Cleveland with his wife, daughter, and son and is a frequent contributor to *The New York Times* and *Gourmet* as well as his highly popular blog at Ruhlman.com.

Schneider, Vanessa

MY COUSIN MARIA SCHNEIDER

Hardcover * April 2023

The late French actress Maria Schneider is maybe best known for playing Jeanne in the controversial film "Last Tango in Paris," which released to international shock and acclaim in 1972. It was her first major role, secured alongside film legend Marlon Brando when she was barely 18. The experience would haunt her for the rest of her life, traumatizing her, pigeonholing her, and sparking a tabloid firestorm that only abated when she began to recede from the public eye nearly two decades later. For Maria's cousin, Vanessa Schneider, 17 years Maria's junior, Maria was a towering figure of another kind--a beautiful and fearsome fixture in Vanessa's childhood, a wunderkind turned pariah whose career and struggles with addiction won the family shame and pride in equal measure. In *Tu T'Appelais Maria Schneider*, Vanessa charts

the challenges of their overlapping youths, and reveals both the tragedy and inevitability of Maria's trajectory in a family plagued by mental illness and in a society rife with misogyny. In Vanessa's compassionate and unflinching narrative, Maria comes into focus as a complex three-dimensional figure for the first time. Unsentimental but suffused with deep love, this is a story of a young and talented artist, and how exploitation and its lingering effects can reverberate through a lifetime. In a world still reeling from revelations about high profile abusers and the systems that enabled their atrocities to go on for decades, *Tu T'Appelais Maria Schneider* is a crucial contribution to an ongoing conversation about the treatment of women pursuing careers and ambitions in male-dominated industries. Vanessa Schneider is a French journalist and author of the bestselling and award-winning memoir *Tu T'Appelais Maria Schneider*, published in France in 2018. Vanessa is also the author of two novels, *La Mère de ma mère* and *Do Not Go Crazy*. *Tu T'Appelais Maria Schneider* is the first of her books to be translated into English. She is currently a staff writer at *M* magazine in France and regularly contributes to the programs *C dans l'air* on France.5 and *As We Talk* on France International. Molly Ringwald's writing has appeared in *The New Yorker*, *The New York Times*, *The Guardian*, and *Vogue*, and she is the author of the best-selling novel-in-stories *When It Happens to You*.

THE DEERFIELD MASSACRE: The 1704 Attack on Deerfield, Massachusetts and the Epic Saga that Followed

Hardcover * April 2023

Once it was one of the most famous events in early American history. Today, no one remembers. In an obscure, two-hundred-year-old museum in a little village in western Massachusetts, there reposes what was once the most celebrated but now totally forgotten relic from the history of early New England—the massive, tomahawk-scarred door that came to symbolize the notorious Deerfield Massacre. This impregnable barrier—venerated by early Americans as “The Old Indian Door”—is the sole surviving relic from the most dramatic moment in colonial American history. On February 29, 1704, hundreds of Native Americans and their French allies swept down upon an isolated but key frontier a post and wiped it out. That was only the beginning. Nearly one-hundred survivors were captured and led on a 900-mile forced march north into enemy territory in Canada before they were ransomed back. The sacking of Deerfield led to one of the greatest sagas of adventure, survival, sacrifice, family, honor, and faith ever told on this continent. Swanson is the author of *New York Times* bestseller *Manhunt: The 12-Day Chase for Lincoln's Killer*.

Viren, Sarah

TO NAME THE BIGGER LIE

Hardcover * June 2023

To Name the Bigger Lie is a post-truth coming-of-age story centering on two devastating, complicated instances of deception: the dangerous conspiracy theories pushed by Sarah Viren's high school

English teacher, Dr. Y., and the false sexual harassment accusations made against Sarah's wife, Marta, by a fellow academic intent on beating Sarah out for a teaching job. In Florida in the 1990s, Sarah is a teenager on the cusp of adolescent rebellion when she is assigned to Dr. Y's class in an advanced high school program. As she moves through high school, sneaking out, smoking pot, discovering music and poetry, and coming out, she is entranced and then disturbed by Dr. Y's insistence that his students "question everything" -- which sometimes feels like liberation from the ideas of her childhood, sometimes feels like an existential crisis, and sometimes takes a darker turn. Many years later, Sarah is living in Phoenix with her wife, Marta, and their two small children, applying for new academic jobs and interviewing her old classmates for a book on Dr. Y.'s conspiracy theories, when a series of sexual harassment accusations threatens to derail their lives. She *knows* Marta can't have done the things of which she's being accused, both in her heart and because they don't really make sense: the accusations come from anonymous email accounts, describe "wild parties" at Sarah's house that never happened, and give an account of Marta's whereabouts that don't match with either the women's memories or Marta's iPhone data. The investigation, nevertheless, throws both of their jobs into jeopardy, as well as a new job offer for Sarah. In *To Name the Bigger Lie*, Sarah explores the nature of truth and deception, the powerful pull of conspiracy, and the malleability of personal narratives through these two parallel investigations: uncovering the "truth" behind Dr. Y's teaching methods through her own memories, her classmates' memories, and eventually through tracking down her old teacher; and fighting desperately to uncover who is working to sabotage her and Marta's lives, and why. A compelling, high-stakes journey into honesty and betrayal, this is an unforgettable memoir about the unstable line between truth and invention. Viren is a contributing writer for the *New York Times Magazine* and author of the essay collection, *Mine*.

THE FIGHT OF HIS LIFE: The Inside Story of Joe Biden's White House

Hardcover * January 2023

From the *New York Times* bestselling author of *The Gatekeepers* and *The Spymasters* comes the inside story of President Joe Biden's tumultuous and consequential first year. The Biden administration inherited a country in chaos and was forced to deal simultaneously with a lethal pandemic that created a devastating economic crisis; racial injustice; global warming; infrastructure meltdown; partisan warfare; and a violent right-wing insurrection that revealed just how deep democracy's cracks run. To maintain balance and move forward, the new administration has had to continually prove itself. With unprecedented deep access to nearly all of Biden's inner circle, and drawing on Whipple's extensive sources among nationally known Washington officials, the prize-winning journalist takes readers inside the Oval Office as the critical decisions

of Biden's presidency are being made. *The Fight of His Life* pulls back the curtain on the internal power struggles and back-room compromises. And it follows the decision-making processes of the White House's biggest players, including Chief of Staff Ron Klain, Vice President Kamala Harris,

advisers Steve Richetti, Mike Donilon, Ted Kaufman, and Anita Dunn; Covid Czar Jeff Zients; and, of course, the President himself. A vivid, fly-on-the-wall account of one of America's most consequential presidencies, *The Fight of His Life* is also distinguished by the insightful analysis and interpretation that is Chris Whipple's signature. *The Fight of His Life* is the definitive work on Joe Biden's most immense challenge yet in a lifetime filled with them. Whipple is an acclaimed author, political analyst, documentary filmmaker, and speaker. He is a widely recognized authority on how the White House should be run, and is a frequent guest on MSNBC, CNN, and NPR. He has also contributed essays to the *New York Times*, *Washington Post*, *Los Angeles Times*, and *Vanity Fair*. His first book, *The Gatekeepers*, an analysis of Chiefs of Staff through the decades, was a *New York Times* bestseller. A follow-up book, *The Spymasters*, featured interviews with nearly every living CIA Director and was critically acclaimed. Whipple lives in New York City with his wife Cary.

FELLOWSHIP POINT: A Novel

Hardcover * July 2022

When Agnes Lee receives her third cancer diagnosis at the age of eighty, she focuses on securing her legacy. First, as an author struggling to finish the final volume of her popular children’s series, and secondly, to see through her determination to find a way to permanently protect Fellowship Point, a peninsula in Maine acquired by five like-minded Quaker families in the 1870s. Agnes is determined to dissolve a generations-old partnership agreement in order to donate the land to a trust and thereby protect it from potential development after her death. She’s confident she can convince the two surviving shareholders—her lifelong best friend Polly and her favorite nephew Archie—to go along with her plan. Polly has led a different life than Agnes, exalting in creating beauty and harmony in her home, in her friendships, and in her family life. When Agnes proposes her plans, Polly’s loyalties are torn between the wishes of her best friend and those of her eldest son who is in line to be the next shareholder. But what is it that Polly herself wants? Fellowship Point reads like a classic 19th-century novel in its beautifully woven, multilayered narrative but is utterly contemporary in the themes it explores: a deep and empathic interest in women’s lives, the class differences that divide us, the struggle to protect the natural world, and above all, a reckoning with intimacy, history, and posterity. Alice Elliot Dark is the author of Think of England and two collections of short stories. Her work has appeared in The New Yorker, Harper’s, and The New York Times among others. Her award-winning story “In the Gloaming” was made into two films.

SHARK HEART: A Love Story

Hardcover * August 2023

A lyrical and daring debut novel of marriage, motherhood, and letting go, this intergenerational love story begins with newlyweds Wren and her husband, Lewis—a man who, over the course of nine months, transforms into a great white shark. For newlyweds Lewis and Wren, the first year of marriage is also their last. A few weeks after their wedding, Lewis receives a rare diagnosis. He will retain most of his consciousness, memories, and intellect, but Lewis’ physical body will become that of a great white shark. As Lewis develops the grotesque features and impulses of one of the most carnivorous creatures in the ocean, his complicated artist’s heart struggles to make peace with his failures and comprehend his uncertain future. Meanwhile, Wren tries to understand her husband’s fate—is there any way to reconcile their worlds? As

time goes on, Lewis' condition activates a trove of long-repressed memories for Wren, whose story undulates between her childhood living impoverished on a houseboat, her time with a college ex-girlfriend, and her unusual friendship with a woman pregnant with twin birds. SHARK HEART also foregrounds the story of Wren's mother, Angela. Wren has already lived a version of this tragedy -- her mother transmogrified into a Komodo dragon when she was a young girl. The duplication of this particular kind of grief both allows her to prepare and leaves her in a state of complete surrender. Habeck is an alumna of SMU's Meadows School of the Arts, Vanderbilt Divinity School, and Vanderbilt's Peabody College. She grew up in a small town in southern Oklahoma. This is her first novel.

BRIGHT YOUNG WOMEN

Hardcover * June 2023

Author of the New York Times-bestselling blockbuster Luckiest Girl Alive returns with a chilling fictional retelling of serial killer Ted Bundy's last grisly spree, told from the perspective of the sorority girl who identified him and sent him to the electric chair—sure to entrance true crime fans and the millions of readers of her riveting debut. As BRIGHT YOUNG WOMEN opens, it's January 14, 1978, and a serial killer has arrived on the campus of the Florida State University. As the sorority sisters at Chi Omega go about their evening plans, they can't know that two among them will be murdered by the following morning; two more brutally attacked. They can't know their small decisions -- to attend a party or stay home; to arrive back before midnight or not; to fall asleep with the door open or shut -- will mean the difference between life and death. When Cindy Young arrives home after a fraternity party in the early morning hours, she opens the door onto an active and grisly murder scene. She hears the killer run down the hall, sees his face clearly as he exits the house. She can't know, in the moment, that he's the killer. She can't know what she's about to see, that her life is about to change forever. For all the lives she may have saved, she couldn't save her best friend and roommate Denise. She couldn't save her future, so linked to Denise's, or the trauma that will haunt her future self. BRIGHT YOUNG WOMEN opens years later, when Cindy receives a letter. She's about to be drawn back into the Ted Bundy story, whether she likes it or not. For all the glorification of serial killers, history rarely remembers the victims. In Jessica Knoll's brilliant hands, the story of the Chi O sisters -- and several more Bundy victims -- comes alive. In the vein of THE GIRLS by Emma Cline, we get the perspectives lost to sensationalized biographies and documentaries. We get the stories of bright young women whose lives were cut short. As she did with LUCKIEST GIRL ALIVE, Jessica Knoll provides both a riveting suspense story and a feminist corrective sure to appeal to a huge range of fans in the wake of the LGA Netflix series (airing in Summer/Fall 22). Knoll is the New York Times bestselling author of The Favorite Sister and Luckiest Girl Alive, which is soon to be a major motion picture from Netflix starring Mila Kunis. THE ONLY SURVIVORS: A Novel

Hardcover * April 2023

From the New York Times bestselling author of *All the Missing Girls* and *The Last House Guest*, comes a locked-box mystery about a group of onetime classmates who convene to mark the tenth anniversary of a tragic accident—only to have one of the survivors disappear, casting fear and suspicion on the reunion and on the original tragedy. In the vein of *One by One* by Ruth Ware. Two vans of North Carolina high school students en route to a volunteer trip careened off a mountain road into a river in Tennessee. Only nine of them made it home. On the first anniversary of the accident, another survivor committed suicide. That's when the remaining survivors made a pact: to meet up every year to mark the date, so that none of the survivors will be alone. But on the tenth anniversary, Cassidy, who has always felt like the outsider of the group, decides not to attend, believing the pact is keeping her from moving forward with her life. But on the first day of the planned reunion, a text comes in from an unknown number, with a link to an obituary: Another member of their group had overdosed, three months earlier. Cassidy leaves for the Outer Banks immediately, telling her boyfriend she has a last-minute business trip. When she arrives, she immediately senses that something is off. There's a new tension in

the group, whispers of a tell-all account of their accident—and then one of the other survivors abruptly disappears. Then a phone washes up on the beach with evidence that something much more sinister might be in play. Cassidy realizes that something stronger than survivors' guilt has drawn them together, year after year. And that their pact has been less a promise than an ultimatum, all along. Miranda is the New York Times bestselling author of *All the Missing Girls*, *The Perfect Stranger*, *The Last House Guest*, a Reese Witherspoon Book Club pick, *The Girl From Widow Hills*, and *Such a Quiet Place*. She has also written several books for young adults. She grew up in New Jersey, graduated from MIT, and lives in North Carolina with her husband and two children.
