The Darkest Academy 1 – Bones

- Series launch featuring the tropes *morally grey cast*, *deadly trials* and *bad girl x bad boys*

Since the death of her parents, Lucinda Cross has survived on the streets of the Undercity, until a surprising invitation changes everything: she is to be taught at Vorgoth, the Academy of Darkest Arts. Here, young criminal witches and warlocks – the oppressed and persecuted of magical society – learn to form bonds with familiars that grant them magical abilities. Between deadly trials and violent fellow students, Luci comes into the sights of two men who are more dangerous than any black magic: the leader of the student elite, Devil Markov, and her professor Ezra Aerion, who knows more about her than he reveals. For her parents' killers are closer than Luci suspects.

The Darkest Academy 2 – Ashes

- The sequel to the bestselling trilogy featuring the tropes *haters to lovers*, *slow burn*, *touch her/him and die*, and *villain gets the girl*

Following Ash's rebirth, Luci is no longer an outsider – she is a threat. The phoenix marks her as the bearer of an ancient power whose origins remain a mystery even to the professors. Yet, both inside and outside the academy, further conflicts are escalating: attacks sow fear and lead to divisions among the students. Intrigue, betrayal, and violence define daily life in Vorgoth, and loyalties are called into question. Amidst this uncertainty, Luci accepts Ezra's offer to train her in secret. She also grows closer to Devriel, who makes his disdain for Ezra more than clear. But under the constant threat of an approaching war, she must ask herself: whom can she truly trust?

The Darkest Academy 3 – Nightmares

- Featuring the tropes *lovers to enemies*, *the cursed chosen one*, and *fated mates*

Vorgoth is under siege. The academy is not merely the final bastion, but also the stage for political intrigue and dark conspiracies. Mages and witches clash over morality, yet it is solely a matter of power. Luci, bound to Ash, who is soon to reach his full stature, fights on two fronts: against external enemies and her own inner turmoil. Luci could not extinguish her attraction to Ezra, but Devriel remains her constant amidst the chaos. Contrary to her past experiences, she must learn to trust, to take responsibility – and, ultimately, to make sacrifices.
